Experience

August 2022 - September 2022 Eastwoods College of Science and Technology Intern

During my internship at Eastwoods College of Science and Technology, I contributed to several key projects. I helped develop a web-based viewing gallery to showcase the school's facilities, allowing prospective students and visitors to explore the campus online. Additionally, I worked on creating a hotel reservation system and an event management system, enhancing the college's ability to manage bookings and organize events efficiently.

August 2021 - September 2021 ScribbleCubes Creative Design and Services Intern

During my internship at Scribblecubes Creative Design and Services, I received training in UI and UX design as well as front-end development. This experience allowed me to learn and apply key design principles and coding skills, contributing to the creation of user-friendly and visually appealing digital interfaces.

September 2020 - October 2020 Jose C. Payumo Jr. Memorial High School - SHS Intern

During my internship at Jose C. Payumo Jr. Memorial High School - SHS, I assisted in setting up a new computer lab and installing the necessary software. This role involved configuring hardware and ensuring that all systems were properly equipped to support the school's educational activities.
